

Mindlink Behavioral Health Accessibility Statement

Effective Date: July 23, 2026

Our Commitment

Mindlink Behavioral Health is committed to providing a website that is accessible to all individuals, including people with disabilities. We strive to provide an inclusive digital experience that enables patients, providers, and visitors to access our information and services with dignity and independence.

Accessibility Standards

Mindlink endeavors to design, develop, and maintain its website in alignment with generally recognized accessibility best practices, including the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA, where reasonably practicable. Accessibility is an ongoing effort, and we continually evaluate opportunities to improve the usability of our website.

Ongoing Improvements

We regularly review website content and functionality, work with our developers to improve accessibility, and consider user feedback when making enhancements.

Third-Party Content

Some portions of the website or links to third-party services may be provided by organizations outside of Mindlink's control. While we encourage accessibility across all resources, we cannot guarantee the accessibility of third-party websites or applications.

Need Assistance?

If you experience difficulty accessing any part of the Mindlink website or require information in an alternative format, we encourage you to contact us. We will make reasonable efforts to provide the information or assistance you need.
